SUMMARY

Front End Developer with a passion for programming and solving complex problems. Experienced in using **JavaScript**, **React.js** and **Node.js** to create real-world single page applications on time and to spec.

TECHNICAL SKILLS

STRONG: JavaScript (ES5/ES6+), OOP, jQuery, React.js, Bootstrap 3/4, HTML5, CSS3, Flexbox, Grid, Data Integrations & RESTful APIs (Ajax/Fetch), Photoshop

EXPERIENCED: PostgreSQL, SASS, HTTPie, Express, Node.js, Illustrator, Final Cut Pro, Logic Pro

TOOLS: Git, GitHub, Agile Methodology, VS Code, Figma, AWS, Meistertask, Trello, npm, Slack, Chrome Dev Tools, React Dev Tools, Webpack, Nginx, JSON, Babel, Bash

APPLICATIONS DEVELOPED

MARIO'S MART - Live 🔗 | GitHub 🔗
A **full stack** shopping cart application optimized for both desktop and mobile.
- Utilized **React.js** to dynamically render pages using **Bootstrap 4** styling based on user input.
- Created backend **database** using **PostgreSQL** and deployed via **AWS**.
- Implemented server functionality via **Express** with designated **Node.js** API end-points for data retrieval and session storage.

HR BUDDY - Live 🔗 | GitHub 🔗
A **full stack** employee management web application for businesses that want to automate repetitive administrative functions.
- Created **UI/UX** using **Figma** and implemented using a combination of **Bootstrap 4** and custom **CSS3**.
- Developed using **React.js** to dynamically render pages based on user role and app functionality.
- Deployed via **AWS** using **Express** server with **Node.js** endpoints.
- Created **database** using **DB Designer** and deployed using **PostgreSQL**

COMIC HEROES - Live 🔗 **| GitHub** 🔗
A **solo-hackathon** project utilizing the data from two public **APIs** (programmer jokes & superheroes).
- Utilized **JavaScript (ES 6)** to create **DOM** elements for each functionality based on user input.
- Implemented restrictions via **JavaScript** conditionals to avoid excessive **API GET** requests via **AJAX**.
- Developed with **mobile-first** methodology using **HTML5**, **CSS3** & **Flexbox** to ensure fully responsive across screen sizes.

PROFESSIONAL EXPERIENCE

Collins Aerospace, *Regional Sales Account Manager* 🔗   Jan 2012 – Aug 2020 | Anaheim, CA
- Managed complex sales and program cycles for major aircraft launches.
- Created automated management review decks for monthly business performance reviews.
- Served as primary point of contact for all major airline accounts in the Asia-Pacific, Middle-East and European regions.

Swift Aerospace, *Account Manager* 🔗   Nov 2010 – Jun 2011 | Hatfield, UK
- Sourced and sold hard-to-find consumable products to medium sized aerospace accounts.
- Consistently excelled customer expectations in a fast-paced & small-team environment.

Apple Inc., *Software Trainer* 🔗   Oct 2004 – Jul 2007 | London, UK
- Troubleshot customer computers and performed software & hardware upgrades.
- Performed live presentations of all Apple's software products in front of up to 300 visitors at a time.
- Implemented excellent customer service while assisting customers with technical support issues, repairs and system upgrades.

EDUCATION & TRAINING

LearningFuze, *Accelerated Web Development Program* 🔗   Irvine, CA
Full Stack Developer program with 800+ hours (12-hours/day) of hands-on coding projects and building real-life web applications.

University of Hertforshire, *Aerospace Systems Engineering* 🔗   Hatfield, UK
